

- Control and signaling units for low voltage circuits
- High resistance construction in thermoplastic
- Round bezel for fixing hole 22mm
- Pushbutton with incorporated contact element
- Pilot light with incorporated multi_LED or for direct supply

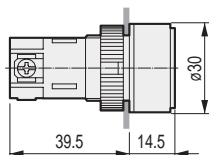

Specifications

Electrical Rating	D300 AC-14 (IEC60947-5-1)
Bulbs	Power: 2.4W max. Lamp holder: type BA9S
Ambient Temperature	+55°C max.
Terminals	screw terminals with retractable clamp
Wiring Cables	0.32mm ² (22AWG) min. to 3.3mm ² (12AWG) max.
Protection Degree	IP40 (EN 60529)
Panel Thickness	1 to 6mm

Subject to change without prior notice

Integral Pushbutton

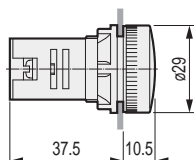

Pushbutton spring return with incorporated contact element 1NO + 1NC, determining a integral monoblock unit.

Options of color only on the button; bezel always is black.

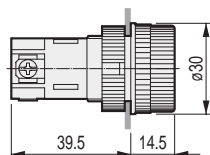

Color ①	Code
Green	C7BNV11
Red	C7BNR11
Black	C7BNP11

① Other color options under consultant.

Integral Pilot Light

Type	Color ①	Code
integrated LED 24Vcc	Yellow	C7PLA24
	Green	C7PLV24
	Red	C7PLR24
	Translucent	C7PLT24
integrated LED 230Vca	Yellow	C7PLA230
	Green	C7PLV230
	Red	C7PLR230
	Translucent	C7PLT230

Direct supply (bulb not included) ②	Color	Code
	Green	C7PNV
	Red	C7PNR
	Yellow	C7PNA
	Blue	C7PNZ
	Translucent	C7PNT

① Other color options under consultant.

		2.4W	C5AL2424			Green	C5ALLV5A
	24V	1.2W	C5AL2412	Neon ④	120V	-	C5ALN120
		2.4W	C5AL2424			-	C5ALN220
	48V	1.2W	C5AL4812	 Neon ④	220V	-	C5ALN220
		2.4W	C5AL4824				
120V	2.4W	C5AL12024					

② For bulbs LED to reject the internal diffuser.

③ Use KAP bulbs always. Bulbs with more than 2.4W may cause damage in the product due the generated heating, mostly in hot enviroments. If you have questions. please contact our technical department.

④ Do not use Neon bulb in pilot lights with green lens.
